“Shooting Schupp’s Photography”

David and Leslie started out on film with a dark room at home, utilizing 35 mm, and large format. They took many photography classes at Consumnes River College and after numerous years sold out to digital. They plan their vacations around where they hope to get ‘the’ shot. Their photography encompasses landscape, architecture, still life, seascapes, flora and whatever catches their eye. When they retire they hope to live and work in National Parks year round and take pictures throughout the seasons. The Schupps enter their photography in Calaveras and Amador County fairs and currently have some of their photos hanging in the Sierra House Restaurant in Pine Grove.

The Schupps are members of the Amador County Artists Association and volunteer at the Amador County Fair.

All of their photos are for sale, either framed or unframed, and your choice of size.
